

CASH FORTUNE COOKIE

Materials Needed:

Decorative craft foam or cardstock, velcro or tape, scissors, cash and fortunes.

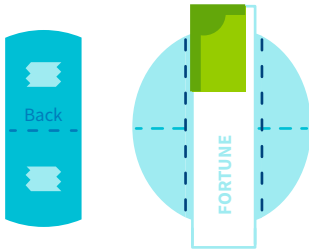

1. Draw a circle (about 5 in. diameter) onto your cardstock or craft foam, then cut it out.

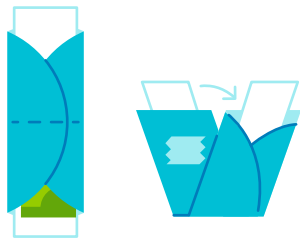

2. Fold the circle in half and crease.

3. Open the circle, and fold in thirds perpendicular to the crease.

4. Turn the folded circle over. Place one piece of velcro or tape on one end, about 1 1/2 inches, from the center crease. Add the other piece of velcro to the opposite end.

5. Unfold the circle. Add in your fortune, like the ones included in the printable below, and the desired amount of cash into the pocket created from the folds.

6. Fold the "cookie" back into thirds, then in half to connect the halves by sticking the velcro/tape together.

7. Puff up the cookie by pushing in the sides.

EXAMPLE FORTUNES

I see cash in your future.

Your lucky number: \$___

A pleasant surprise is in store for you.
